

# Silver Roll Up Stands

supplying guide for silver roll up banner stands

## Need more help?

We have a range of templates for you to choose from! You can find them at the bottom of each product page.

An extra 150mm of bleed is needed at the bottom of the banner so that it slots into the base seamlessly, leaving no white excess.

Your main artwork should stay within the 800 x 2000mm area, with any colours/backgrounds bleeding down into the excess 150mm.
